

PRESS RELEASE

RE: Butler Street Traffic Impact Study

The City of Marietta has retained TEC Engineering to conduct a Traffic Impact Study and evaluate the effects of a potential closure of Butler Street from 4th Street to 7th Street to accommodate proposed improvements by Marietta College. The purpose of this Traffic Study is to assess the impacts of this potential closure on the surrounding streets and intersections.

Two Public Meetings have been scheduled for Wednesday, December 12, 2018, at 2:00 P.M. and at 7:00 P.M. Both meetings will be held at The Gathering Place located at 127 North Seventh Street (directly across the street from Tim Horton's). TEC Engineering will give a brief presentation on the purpose and need for the Traffic Impact Study, the anticipated schedule & timeline for this work, and general discussion of potential impacts to vehicular traffic, pedestrian traffic and safety, re-routing of traffic, etc.

More information on the Butler Street Traffic Impact Study Project can be obtained at the following website: <http://teceng.com/butler-street-traffic-impact-study-project-webpage/>

A handwritten signature in black ink that reads "Joseph R. Tucker". The signature is written in a cursive style and is positioned above a horizontal line.
